Lionel PIGGOTT

Better Administration, Roads & Rubbish Collections

Honest Piggott. A lifetime of hard work in and around Papakura. Having publicly called for the Mayor and CEO's resignations, this is your chance to fix Papakura's problems. I want more accountability, transparency, better roads, careful spending, liquor bylaws that work. Our youth, Police, the courts need more support. Too many don't know right from wrong. My 40 years in the rubbish collection business, will assist in better valued rubbish collections. It is time for elected members to take charge of your council not the executive. Your money is too precious to waste. I will make sure CEO's performance reviews deliver results; stop the money grabbing; work to turn Papakura's social slide around; stop land grabs under the Public Works Act; return valuable land back to the citizens of Papakura; push for Papakura and Pukekohe to become part of a separate southern authority. It's time we had a real Piggott.
